

# Tilton®

# ST-246

## 246mm Twin Disc Clutch Kits

Featuring an aluminum clutch cover that shares technology from Tilton's championship winning line of OT-Series racing clutches, ST-246 clutches feature heavy duty straps that attach the pressure plate and floater plate to minimize noise.

ST-246 clutches are available with either sprung-hub organic discs for street applications or solid-hub cerametallic discs for street/strip applications.

ST-246 clutches are available with either sprung-hub organic discs for street applications or solid-hub cerametallic discs for street/strip applications.

Available for T56 and TKO.

CHEVY CAMARO GEN 5, 6, CORVETTE C7, C5, CHEVY LS TREMEC T56 MAGNUM 6-SPD
